About CVM:

Late Shri Sardar Vallabhbhai Patel inspired Shri Bhaikaka and Shri Bhikabhai Saheb for rural resurgence of post-independent India through education and Charutar Vidyamandal (CVM) was conceived. It was established in the year 1945 as a charitable trust with a prime objective of rural development through education to bring about the social awakening, social upliftment and enrichment. Over the subsequent years, Dr. H M Patel consolidated the efforts put in by the founders. Later on, in the 1990s, Dr. C L Patel took over the reign of CVM as the Chairman. The dynamic leadership, missionary zeal and visionary outlook of Dr. C L Patel successfully took up the challenges. Various self-financed educational institutions started in the areas of Technology, Science and Engineering, Commerce and Management. CVM initiated emerging and innovative courses and programs such as Information Technology, Mechatronics, Automobile Engineering, Bio-technology, Food Processing Technology, E-Commerce, Valuation, etc. Over the span of around more than six decades, CVM has been making spectacular progress by venturing into various emerging disciplines. Today CVM is nurturing 45 educational institutions of diverse types and a sophisticated Research Institute contributing to the panoramic growth of Vallabh Vidyanagar and New Vallabh Vidyanagar.

About the Institute & Department:

The Institute, G H Patel College of Engineering & Technology (GCET) is managed by the highly reputed and the largest educational trust of Gujarat, Charutar Vidyamandal. From the very inception (in the year 1996) GCET has striven to develop itself into an Institution of Excellence in education and research in consonance with the spirit of modern Gujarat. In meeting this challenge for excellence, GCET has shaped its institution to the contemporary as well as future demands of need-oriented education. Today GCET has a total strength of 1800 students studying for Chemical, Mechanical, Information Technology, Electronics & Communication, Computer, Electrical Engineering and Mechatronics under the tutelage of more than 125 dedicated and competent faculty members. GCET is ranked 84th among top 100 engineering colleges across the country as surveyed by Data Quest 2011. Department of Mechanical Engineering is flourishing with young and dedicated head and faculty members. The faculty members are encouraged and motivated for promoting research and development and thus enriching the excellence in education. With strong industry-institute linkage, the department is extending their services for industrial consultancies.

Location of GCET:

It is situated in the exquisite lush green township of Vallabh Vidyanagar which is about 5 km away from Anand city. Anand is situated between Ahmedabad and Baroda.

Conference Theme & Areas:

Technologists, scientists, professionals and research scholars are invited to present their original and unpublished work and experience as a technical paper in the conference under following areas:

- Design Engineering
- CAD / CAM / CAE
- Robotics, Automations & Artificial Intelligence
- Manufacturing Engineering
- Material Science & Metallurgy
- Product Design & Development
- Industrial Engineering & Management
- Energy Conservation & Management
- Thermal Science & Engineering
- Computational Fluid Dynamics

Publisher:

The selected papers for the conference would be published online by Universal-Publishers, Inc., BrownWalker Press, USA

Paper Submission Details:

All papers will be peer reviewed on the basis of originality, technical depth, content & relevance to conference theme. Only original papers that have not been published or submitted for publication elsewhere can be submitted. Full papers are required for review.
