

Industrial Training for Diploma Plastics Engineering

All the principals of polytechnics having Diploma in Plastics Engineering program are instructed to begin Industrial Training of semester V from 26th July 2010. The duration of Industrial Training will be six months. The students should be sent for the training subject to the eligibility criteria as per the Gujarat Technological University norms. If any student found not eligible for semester V after the declaration of the result of semester IV, the student will have to be called back from the industry and his/her training will be cancelled. Institute is required to take care of the eligibility criteria of the student for training.
