

## GTU-ISTE PRINCIPAL CONFERENCE

October 21st, 2010

**To: Principal /Director Administrator of All Institutions Affiliated to GTU**

Dear Sir,

Wish you a Happy and Enlightened Festive Season.

It gives me immense pleasure to inform you that ISTE Gujarat Section with joint auspicious collaboration with Gujarat Technological University is organizing a one day Principal Conference on “Emerging Concept of Technological University” on November 20<sup>th</sup> 2010, Saturday. The theme of conference is “**Gujarat Technological University: Retrospect & Prospects** “

This is the third year since inception of Gujarat Technological University and university is steadily and consistently progressing to achieve desired aims and objectives for the cause of Technical & Higher education competing the present challenges and opportunities. The conference is aimed to get valuable and rich input from the experts, stack holders ,beneficiaries and to enhance the set up with reference to academic and administrative governance of the university. Issues includes curriculum, industry-institute partnership, research and development activities, continuing and cooperative education modules, partnership with foreign universities, examination and evaluation procedures etc. This will definitely provide positive foot step in this direction facing minimal resistance and obstacles – inherent ones and otherwise. Most of the issues are related to its practicality, advisability and profitability in the sense of end result. The system that is in vogue today has developed on the base of past experience and limited resources. The system that governments and academicians are trying to bring would also have its own advantages and disadvantages. Wisdom lies in the amalgamation of

the two systems in such a manner that the disadvantages are minimized and advantages get amalgamated into the new system.

We, the organizers, are interested in having open and fruitful deliberations in the light of the changing times. Education, they say, must have not only reading, writing and Arithmetic skill but it should be responsive and relevant, too. The conference will provide a platform for all the administrators and Academicians from Technical Education to deliberate and provide concrete positive input.

We do have planned to invite the Vice Chancellor of Technical University from other state like Karnataka, Punjab, Madhya Pradesh and Rajasthan to present their expertise and experience to the august gathering. Representatives from DoTE, GTU, Industries, Parents and Student will also be part of the conference to share their thoughts.

Your role in the form of long standing contribution through rich experience in teaching, administration and other modes has been quite noteworthy. Technical fraternity has been looking forward to your valuable inputs by the way of participating in this important symposium. On behalf of organizing team **I request you to kindly accept our invitation to participate in this event and to play vital role.**

A positive response from you will be a great support to the conference as well as the cause for which it is held. Please send your confirmation by 10<sup>th</sup> November, for strategic planning of the activities including logistics. For any further assistance, please feel free to call Prof. Indrajit Patel, 9898034464.

Send your confirmation of participation to ISTE Gujarat section, B & B Institute of Technology, Vallabh Vidya Nagar-388120.Anand.

I look forward to your acceptance and august presence.

Thanking you

Yours truly,

**Prof Bhuptani**
