SAFFRONY INSTITUTE OF TECHNOLOGY

Saffrony Institute of Technology was established in the year 2006-07 as a self finance group of institutions approved by AICTE and affiliated to Gujarat Technological University, Gandhinagar at the initiative of Jay Jalaram Education Trust. Saffrony Institute of Technology is running two institutions namely, S P B Patel Engineering College (offering Diploma, Degree and post graduate in various disciplines of engineering) and B S Patel Pharmacy College. (Offering Degree and Post Graduate in pharmacy)

ABOUT THE INSTITUTE

S P B Patel Engineering College is a leading institute offering multidisciplinary diploma, undergraduate, postgraduate, and PhD programmes in engineering. Institute is located in peaceful and sylvan surroundings, about 40 kms from Ahmedabad and 14 kms from Mehsana on Ahmedabad-Mehsana highway. The academic ambience provides full scope for development. The presence of the institute can also be felt by its alumni spread in national and multinational organizations as well as leading universities throughout the world. The institute provides an inspiring environment to all students to expand their intellectual dimension and recognize their hidden talents, not only in the technical field, but also in life skills.

The campus provides all modern infrastructure facilities including classrooms and discussion rooms equipped with smart board, audio-video teaching aids, e-learning wares, Wi-Fi network, Library, Laboratories, Computer Centre, Canteen, Play Grounds etc. The academic ambience gives full scope for group activities and also to individual pursuits for development on preferred tracks.

THE DEPARTMENTS

The Department of computer Engineering and information technology has been offering the undergraduate degree programme in computer Engineering and information technology since 2006-07, Postgraduate programme in computer science & Engineering since year 2011. The Department organize up-to-date training on current professional practices. The department also offers consultancy services to the industries and industrial problem solving through industry-interaction. The department has organized many

training programmes for professionals and for faculty members in areas of networking and security, image processing, cloud computing, semantic web, data and web mining.

OBJECTIVES OF THE PROGRAMME

- ✓ Motivate and inspire students to pursue their career towards the field of android programming.
- ✓ To ensure that participants are familiar with the various android programming techniques and tool.
- ✓ To enhance the professional ability to understand working and operation of android programming.

SEMINAR CONTENTS

- ✓ This workshop will help participants to deal with the current need in the market regarding android application development and provide a window of opportunity for them .in this workshop participants will get practical knowledge of android.
