ABOUT CHARUTAR VIDYA MANDAL:

One of the greatest sons of India Late Sardar Vallabhbhai Patel inspired Shri Bhaikaka and Shri Bhikabhai Saheb for rural resurgence of post-independent India through education, and Charutar Vidya Mandal was born. Charutar Vidya Mandal was established in the year 1945 as a charitable trust with a prime objective of rural development through education. The uniqueness of Charutar Vidya Mandal lies in its ability to use quality education as a powerful means of social transformation under the continuous dynamic leadership of Late Shri Bhaikaka, Late Shri Bhikhabhai Saheb, Late Shri H.M. Patel and now with Dr. C. L. Patel as the present Chairman of CVM. ARGH Pharmacy is thriving under the patronage of CVM. The dynamic leadership, missionary zeal and visionary outlook of Dr. C L Patel successfully took up the challenges. Various self-financed educational institutions started being established in the areas of Technology, Pharmacy, Science and Engineering, Commerce and Management, offering emerging and innovative courses and programs such as Mechatronics, Automobile Engineering, Biotechnology, Food Processing Technology, E-Commerce, Valuation, etc. Today the investment of Charutar Vidya Mandal stands at more than US\$ 30 million, and a new self-contained Satellite Township called New Vallabh Vidyanagar sprawled over 100 acres has already received an investment of around US\$ 20 million. At present, Charutar Vidya Mandal operates 45 Educational Institutions from schools to colleges, and a sophisticated Research Institute, with over 30,000 students on the roll.

ABOUT A. R. COLLEGE OF .PHARMACY & G. H. PATEL INSTITUTE OF PHARMACY:

A.R. College of Pharmacy & G. H. Patel Institute of Pharmacy (ARGH) is one of the best Pharmacy Institutes in the Gujarat region. Charutar Vidya Mandal (CVM) set up an institute offering Diploma in Pharmacy in the year 1981, with generous donation from eminent philanthropist Shri Gordhanbhai Hathibhai Patel & in the very next year i.e 1982 Degree Pharmacy College, A.R .College of Pharmacy & G H. Patel Institute of Pharmacy (ARGH) was established with donation from an industrialist Smt. Anjanaben Ashokbhai Shah. At present the institute imparts education in Diploma, Graduate, Post Graduate and Doctoral level studies

and conducts research in emerging/ thrust areas of Pharmacy. The college has been housed in 5 acres of land area with 5200 sq. meters built up area. The building has been housed in a three storied building with adequate spacious class rooms, administrative office, library and reading room. 18 well equipped laboratories including computer laboratory with internet and Wi Fi facility, research laboratories, animal house, medicinal plant garden, assembly hall and students amenities as per AICTE, PCI & GTU norms and State-of-the-art laboratories in each department.

The institute is affiliated to Gujarat Technological University, Ahmedabad for D. Pharm. B. Pharm, M. Pharm and Ph. D (Pharmaceutical Sciences). It has also been duly recognized by Pharmacy Council of India. Government of Gujarat (Commissionerate of Technical Education), accredited by National Board of Accreditation, All India Council for Technical Education and International Accreditation Organization, U.S.A. The Institute has I.S.T.E. Membership.

ABOUT CONFERENCE:

In India, the hospitals are run by government, charitable trusts and by private organizations. The government hospitals in rural areas are called Primary Health Centres (PHCs). Major hospitals are located in district head quarters or major cities due to those lots of towns or rural area facing the lots of problems to get proper medical service or facilities while our 70 % of population are residing in rural areas. Rural healthcare in India is characterized by a huge gap between supply and demand. Pharmacists have the potential to fill the gap created due to shortage/unavailability of doctors and nursing personnel in health facilities in rural areas. This can be achieved through a policy initiative to redefine the role of pharmacists in the Indian healthcare system So based on the rules and regulations of Pharmacy Act 1948, Drugs and Cosmetic Act 1940 and Rules 1945 and Indian Medical Council Act 1956, Future Pharmacists Welfare Association (FPWA) Approved by GOVT OF INDIA (Regd No: 0066/2012) designed a Unique Protocol Named as "PHARMA CLINIC" is Legally accepted, Which can overcome all the problems of Indian Pharmacy Graduates. The traditional role of pharmacists is to manufacture and supply medicines but the World Health Organization (WHO) and the International Pharmaceutical Federation (FIP) says that Pharmacists have an important role to play in health care, with greater health demands, increasing complexity of medicines and

poor compliance, the pharmacist role has evolved into a more patient centred approach which is much more than selling medicines. On the basis of this conference, we would like to provide the platform to deliberate of the theme of conference for the interest of profession and society at large.

ABOUT CSIR:

Council of Scientific and Industrial Research (CSIR) established in 1956, is an autonomous body and India's largest Research and Development (R&D) organization, with 39 laboratories and 50 field stations or extension centers spread across the nation, with a collective staff of over 17,000. Although CSIR is mainly funded by the Ministry of Science and Technology, it operates as an autonomous body registered under the Registration of Societies Act of 1860. Today CSIR is recognised as one of the world's largest publicly funded R&D organisations having linkages to academia, R&D organisations and industry. CSIR's 37 laboratories not only knit India into a giant network that impacts and add quality to the life of each and every Indian but CSIR is also party to the prestigious Global Research Alliance with the objective of applying global knowledge pool for global good through global funding. CSIR's R&D portfolio embraces areas as diverse as Aerospace, Biotechnology, Chemicals...indeed, almost the ABC-Z of Indian Science!

ABOUT GUJCOST:

Gujarat Council on Science and Technology (GUJCOST) established in 1986 under Education Department, Gujarat State. Gujarat Council on Science & Technology is functioning as an autonomous society from Date 1-2-2000 under department of Science & Technology. GUJCOST assist the organizing training courses, workshops, seminars, conference, discussions, dissertations consultancy services and exhibitions. Its objectives of tackling of the problems of backwardness, unemployment and poverty and of addressing itself to the problems of the rural area, and under privileged sections of society such as Scheduled Castes, scheduled Tribes, Landless Labor, Artisans Small/Marginal farmers and women.
