Pedagogy sessions in Calculus

Mathematics is the core part of all curriculum subjects, and mathematical understanding influences decision making in all areas of life—academic, private and public. This pedagogy workshop will focus on effective Mathematics teaching. It will describe the kinds of pedagogical approaches that engage learners and lead to desirable outcomes. The aim of the pedagogy workshop is to deepen the understanding of teachers and assist them to optimize opportunities for Mathematics learners. Collectively, the principles found in this workshop are informed by a belief that Mathematics pedagogy must:

- be grounded in the general premise that all students have the right to access mathematical culture.
- acknowledge that all students can develop positive mathematical identities and become powerful mathematical learners.

General information:

The pedagogy session is open for faculties of mathematics having teaching experience less than seven years from GTU affiliated Engineering colleges. Last date for registration **20th June 2012.**
