TIRUPATI FOUNDATION TRUST

Tirupati Foundation Trust (TFT) was established on 1st November 2004 under Mumbai Common Act, 1950. The trust is devoted and vigorous in the field of professional and outstanding quality of education. Tirupati foundation trust is outcome of punctilious of two visionaries Chairman, Mr. Girish J. Patel and Secretary, Mr. Shital D. Patel. The Tirupati foundation trust is meant at creating a conducive environment blended with modern technologies. Later on it expanded its roots in the field of education at Vallabh Vidyanagar with germination of "SARDAR PATEL EDUCATION CAMPUS". Tirupati Foundation Trust started B.Pharmacy programme in 2007 and at present the trust manages various UG & PG programs in the field of pharmacy, management, technology and education.

THE INSTITUTE

Sardar Patel College of Pharmacy is one of the growing degree Pharmacy college managed by tirupati foundation trust sprawled over 5 acres of land.

The institute is offering B. Pharm and M. Pharm (Pharmacology, Pharmaceutics and Quality Assurance) programs. Institute is approved by PCI, AICTE and affiliated with GTU.

The institute was established in 2007 and is

situated at Vadtal - Vallabhvidya Nagar road a civic of learning centre. The college is facilitated with impressive and aesthetically built academic building with sufficient area spreaded over acres of lush green campus, modern well equipped research laboratories, seamless and enriched library, qualified & experienced staff The college is looking forward to consolidating its position by strengthening its value to impart best education in diversified fields of Pharmacy.

OBJECTIVES OF THE SEMINAR

Spectroscopic methods of structure elucidation and characterization are of profound importance in connection with organic synthesis, work with pharmaceuticals and their metabolites, with biochemicals, natural products, foods and food additives, endogenous and environmental toxins, biotechnology products, etc. The specific objective of Spectroscopy seminar is to promote a wide spectrum background knowledge regarding the principles of UV/Vis, Infra-red, NMR and MS spectroscopic methods which involve the interaction of a sample with a form of energy and this energy is assimilated that gives information concerning the identity and quantity of the chemical species present in the sample. Each spectroscopic technique will be discussed with a strong emphasis on principles and then carry the exercise with logic of structure elucidation and interplay of various spectroscopic techniques for establishment of the structure of the organic compound.

RESOURCE PERSONS

Eminent resource persons from academia and industry will deliver in-depth information in the scientific sessions.

ELIGIBILITY

Teachers of all Pharmacy Colleges/ Professionals/ Students/ Research Scholars and Scientists from academia and industries.

HOW TO REACH

The institute is located at around 8 kms from Anand. The transportation facility of city bus, auto and taxi are available from railway/bus station of Anand.
