The whole idea was conceptualized keeping in mind the market downfall for jobs in Pharmacy domain. Students in Pharma struggle to get appropriate jobs and hence we initiated PHARMA CAREER SUMMIT 2013, with the objective to bring in EMPLOYERS and STUDENTS face-to-face to carve successful partnerships.

In past, L.J. Group of Institutes had organized "Pharma Career Summit 2012" which was a grand success for the stake holders of Pharma domain, both students and industries. We have also started "Pharma Cradle" wherein we provide our students a platform to interact with successful Pharma entrepreneurs and get motivation and exposure by their success stories. By these continuous innovative efforts, we at L.J. GROUP OF INSTITUTES are trying to revive and encourage the Pharma domain.
