About the Institute:

Venus International College of Technology is an engineering institution established by G.P. Jain Charitable Trust with a primary motive of providing quality education to the budding youth. Our aim is to provide world-class technical education to benefit all the section of the society. We pay a great deal of attention to our academic excellence and cultural ethos which include constant updating of details, continuous evaluation and improvement of systems and students and provision of a team with excellent faculty in a congenial academic environment.

About the OSTC – GTU:

Gujarat Technological University has initiated GTU Open Source Project in order to encourage use of FOSS technologies in academic work as well as for office work. As directed by our honorable Vice Chancellor Shri Agrawal sir, under this project each college is required to establish Open Source Technologies Club at its premises

OSTC at Venus International College of Technology:

In order to contribute towards advancement of the initiative taken by MHRD – Govt. of India, Spoken Tutorial Project IIT Bombay and as per vision of **Honorable Vice Chancellor Prof. Dr. Akshai Aggarwal**, Open Source Technologies Club has been established at Venus International College of Technology – Gandhinagar. Our honorable Chairman **Shri Rishabh Jain sir** has shown keen interest in this initiative and has announced full support of all kind for making this venture a grand success. **Prof. Dr. K. N. Sheth** – Director at Venus International College of Technology has motivated faculty members to become a part of this activity and put in efforts for promoting use of Open Source Software Technologies in educational and academic administrative work. Campus Director **Shri Manoj Motiani sir** has declared to provide all the requisite resource facilities as and when required for various activities of OSTC. Total 14 faculty members have come forward and formed a committee to work as members of Open Source Technologies Club.
