

# Indian Society for Technical Education Regional Seminar

**XXI Century : Priorities in Technical and Higher Education**

## **CHARUTAR VIDYA MANDAL**

Vallabh Vidyanagar, Gujarat.

**August - 3, 2011**

**ISTE, Gujarat Section  
&  
Gujarat Technological University**

### **Preamble :**

The frontiers of knowledge and technology have opened new horizons for integrated global development over the world as well at home for technical and higher education. It is now a right time to engage ourselves to useful discussion and dialogue to identify priorities related with the future growth and development in technical and higher education.

It is felt that we need to shift our focus from educational paradigm to learning paradigm, making creativity and innovation as integral component of teaching learning process, expanding the role of faculties and other stakeholders along with accreditation program and creation of the world class institutions.

We also need to address to the attainment of excellence, quality as well as the sustainability. Quality assurance and quality education go hand in hand for any institution.

It is pronounced that research activities and freedom for innovation in academic institutions promote excellence. A balanced mix of teaching and research as a part of professional carrier is conceived to be fruitful and desirable endeavor.

The regional seminar intends to explore the prominent priorities and recommendations for the benefit of strategic foresight and planning for the time to come in 21<sup>st</sup> century.

### **About Vallabh Vidyanagar :**

Vallabh Vidyanagar, named after Sardar Vallabhbhai Patel, The Iron Man of India, is 6 kilometers from Anand, The Milk Capital of India. Over the years it has emerged to be an active Educational Hub in the western part of India. It has made its distinct identity in the sector of education by offering numerous emerging and innovative academic programmes and by attracting students across the globe. Anand is situated between Ahmedabad and Vadodara on the main rail-link and also NH -8, about 75 kilometers from Ahmedabad and 40 kilometers from Vadodara. Vallabh Vidyanagar is blessed with the beauty of nature. Its lush green trees of different types and kinds have not only made the town environment-friendly, but also created a serene and ever-enjoyable peaceful atmosphere generating synergistic pleasure on the campus.

### **About Charutar Vidya Mandal (CVM) :**

Since 1946 Charutar Vidya Mandal is involved in social reformation particularly the rural mass of the country by way of providing quality education. CVM is non profitable charitable organization running over 46 institutes under one umbrella. Over 48 thousand students are taking education in different branches from arts, commerce, science, engineering & technology, medicine, applied branches and schooling. Institutions are from Kinder Garten to Post Doctorate level in all branches of education. To meet the needs of 21<sup>st</sup> century management has established state of art institutions and satellite educational township called New Vallabh Vidya Nagar. More than 30 million USD has been invested to meet the needs and international standards. Under dyanamic leadership of Dr C L Patel, MoU's have been signed with Government of Gujarat this year for total investment of 500 crore INR for new institutions including National Design Academy, College of Defence Technology, Institute of Law and Justice, Business School and Non Conventional & Renewable Energy Research Institute. CVM has set up over 45 institutions (colleges, institutes, centres, and schools) proving itself highly responsive to the changing socio-economic environment by venturing into various emerging disciplines, such as Mechatronics, biotechnology, food processing technology, and automobile engineering.

### About ISTE :

Indian Society for Technical Education, (ISTE) is operating since 1960 for betterment of personnel connected with professional education and sustainable development of technical society at large. ISTE is a national professional organization with membership open to all persons and Institutions connected with or interested in technical education. Its major objective is to assist and contribute to the production and development of professional engineers and technicians of the best quality as needed by the industry and other organizations. The role and importance of the ISTE have been well recognized by the Central and State Government and the ISTE is now being represented in various boards. Also the Ministry of Human Resource Development (MHRD) and the All India Council for Technical Education (AICTE) have been involving the ISTE in most of its programmes. ISTE and AICTE are working as strategic partner for noble cause of technical and higher education. It has also spread in SAARC nations since last decade and recently associated with American Society for Engineering Education.
