## REPORT ON INDUSTRIAL VISIT TO INFOSYS - PUNE

## REPORT ON INDUSTRIAL VISIT TO INFOSYS - PUNE

Under the auspices of Parul Institute of Engineering & Technology, the Students & Teachers had been to INFOSYS Campus, Pune on 27th August, 2011 for Industrial visit led by Prof. Abhipsa Makwana. The Visit was organized by MCA, Computer Engineering & Information Technology Departments with faculty coordinators being Prof. Sweta Jethava, Prof. Pritesh Upadhyaya & Prof. Akil Surti from MCA Department, Prof. Nisha Shah & Prof. Kanchan Bhale from Computer Engineering Department and Prof. Gordhan Jethava, Prof. Daxesh Panchal & Prof. Chintan Mahant from Information Technology Department.

Particulars	Description
<b>Total Number of Students</b>	<b>111</b>
<b>Total Number of Faculties</b>	<b>09</b>
Time of Departure from Parul Campus	04:00 PM (26 <sup>th</sup> , August, 2011)
Time of Arrival to Infosys, Pune	09:00 AM (27 <sup>th</sup> , August, 2011)
Time of Return to Parul Campus	07:00 AM (28 <sup>th</sup> , August, 2011)

The Industrial visit was supported under the SPARK Program, an extraordinary program that aims to raise the aspiration levels of students. This nation-wide program has focused on the advances Information technology has made, Infosys's role in the growth of IT and how students can learn from it.

Spark was a one day program that was designed to expose students to the best High-class learning environment and techniques. Through this on-campus event, students from different age groups and segments ranging from high school to degree and engineering colleges from urban and sub-urban areas assessed their industry readiness and checked and calibrated their aspiration meters.

Spark program was able to raise the aspirations of the students to a new high by doing the following:

- Helping them understand the relevance of IT in business
- Helping them show the seeds to a dream career

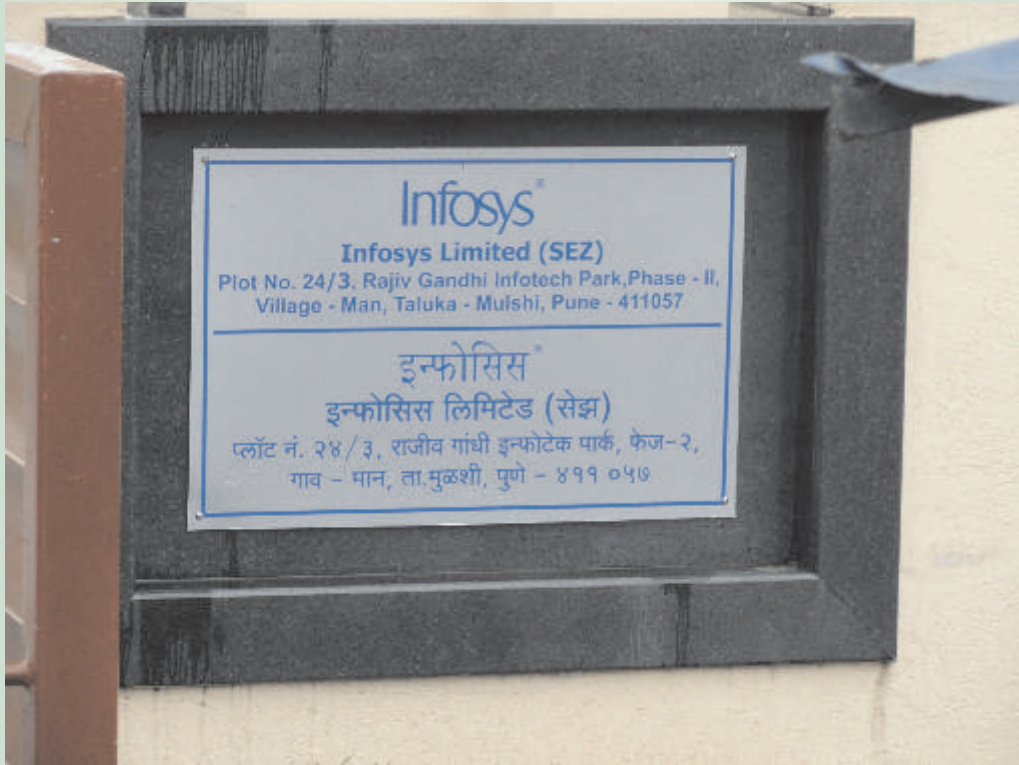

This program has brought students and faculty members from an institute on an exclusive platform and shared with them the Infosys story and the Infosys experience. Infosys demonstrated that it is possible to dream and achieve. It helped students identify their hidden talents and awaken their potential to excel. Interaction with senior Infosys employees exposed the students to current trends in the IT industry.

### Technical aspects of Industrial Visit

A detailed explanation was delivered by Mr. Abhinav Vatsa as a part of the visit to the students. The seminar included a Video Presentation as well as effective sort of verbal explanation about the company's background and their efforts behind the success of Infosys.

Moreover, an expert speech was delivered by Mr. Hemant Bhatt, on 'Think Project Approach' in which students actively participated in the group event and shared their views about how they can plan their projects.

At the later part of the program, We had an Infosys campus tour, which covered up Infosys - Phase II development and IBPO departments.
