About Work shop

In the era of fast growing technology, our Short Term Training Program (STTP) would play a significant role in synchronizing and keeping up with the current global trends. The objective of this course is to create awareness among faculty members, research scholars, students, industry and R&D personnel to understand the importance and requirements in emerging field of Embedded System, VLSI Designing and Power Electronics. The course is designed to introduce participants to the latest trends in this emerging field.

About Parul Arogya Seva Mandal

Parul Arogya Seva Mandal was established in the year 1989 to serve the society and nation by providing medical facilities, education and employment. According to the founder Dr. Jayeshbhai K. Patel, education in the surest path leading to the empowerment of the downtrodden masses. This principle was the motivation for starting Medical, Paramedical, Engineering and Management Programs in Vadodara, Dr. Jayeshbhai K. Patel established a huge campus spread over 100 acres. It is a verdant "Gurukul" offering a variety of courses. Colleges of Physiotherapy, Homoeopathy, Ayurveda, Pharmacy, Management Studies, Teacher's Training and Engineering and Technology (Degree and Diploma) testify the multidisciplinary approach as far as education is concerned. It also offers full time Master degree programs in EC, Civil, Computer, IT and Mechanical. To explore the endless avenues of knowledge and make education available to the aspiring youth, new colleges and courses are started as and when the need is felt. It is remarkable that the peak of success is reached with much wisdom and hard work in a short while. The pioneer, Dr. Jayeshbhai K. Patel's efforts are complemented by the enthusiasm of Dr. Devanshu J. Patel and it adds to the strong determination to go much ahead.

About Parul Institute of Engineering & Technology (Diploma Studies)

In the year 2003, Parul Institute of Engineering and Technology (Diploma Studies) was established. The Engineering courses comprise disciplines like Electrical, Civil, Architectural Assistantship, Mechanical, Computer, Automobile and

Electronics & Communication courses. Our Electrical, Mechanical and EC Engineering departments are accredited by NBA-AICTE. We aim at the overall development of students. International and National level technical symposiums like Projections, Seminars, Workshop and sport & cultural event such as Dhoom gives the students much needed exposure. We hope for the best in the coming years and can prove that we will fulfill the career aspirations of our students and personnel in industry with the recent developments in the field of E & C Engineering. We foresee a tremendous development in the field of technology in India and abroad.

About Electronics & Communication Engineering Department

This branch of Engineering was commenced in the year 2003. In a very short span of time, the department became fully equipped in every respect, with competent staff and modern facilities in laboratories. The department has stable and dynamic faculty members. Industrial visits and Expert talks are included in our academic schedule. We have developed a VLSI & Embedded System lab with all the required facilities. Our E&C software lab has several updated softwares. Industry - Academic interactions are being given prime importance.
