**One-Day Workshop
for
Women Engineering Students
on
Women Techno-preneurship
21st January, 2011
Organized by
G H Patel College of Engineering &
Technology
(A Charutar Vidya Mandal Institute)**

In collaboration with
**Women's Studies Centre
Sardar Patel University**
Sponsored By
**National Research Development
Corporation, New Delhi**

Preamble

Women Engineers in 21st Century have been excelling on employment front, academics and in developing businesses by themselves. Many of them have contributed significantly by joining with their family businesses. In most of the cases their efforts are under-recognized or even not acknowledged properly. They are deprived of their deserving monetary as well as non monetary benefits, apart from the recognition. However, there are shreds of evidence of women engineers turning as successful techno-entrepreneurs; some of them manage their engineering firms successfully. Some of them even enter into non traditional enterprises by developing new products and processes. It would be indeed worth for our

women engineering students to listen to some of the successful women technocrats, their struggles to overcome adversities and the successes. This will certainly enhance the confidence with which they can plan for future differently. The first women engineering college in Gujarat was set up by the Charutar Vidya Mandal to produce more women technocrats. Hence, the current topic is more relevant in the contemporary achievement-oriented society. The workshop aims at empowering the budding women engineers in the area of entrepreneurship and understanding it pragmatically.

About the Organizers

G H Patel College of Engineering & Technology is managed by one of the highly reputed and the largest educational trust Charutar Vidya Mandal. From the very inception (in the year 1996) GCET has striven to develop itself into an 'Institution of Excellence' in education and research in consonance with the spirit of modern Gujarat. In meeting this challenge for excellence, GCET has shaped its institution to the contemporary as well as future demands of need-oriented education. As per the latest Dataquest survey GCET is ranked 85th position in the country. Today GCET has a total strength of 1800 students studying for Chemical, Mechanical, Information Technology, Electronics & Communication, Computer, Electrical Engineering and Mechatronics under the tutelage of 120 dedicated and competent faculties.

Women's Studies Centre at Sardar Patel University was established in March 2005. The aim of the centre is:

- 1) capacity building in the educated, employed women with regard to managerial abilities such as communication skills, administrative skills, confidence building etc.
- 2) Entrepreneurship skill building in unemployed women, college girls, housewives etc. The Centre carries out activities such as Training programmes, Workshops; Entrepreneurship based activities, Documentation and other activities related to Women Development.

National Research Development Corporation, an enterprise of DSIR, Ministry of Science and Technology, Govt. of India, is a premier technology transfer Corporation with four decades of experience. It has helped establish over one thousand projects in the small and medium scale sector. The supply of technologies and services to entrepreneurs extend both in the developing and developed countries like USA, Germany, Malaysia, Burma, Nepal, Senegal, Madagascar, Indonesia, Philippines, Vietnam, Lanka, Kenya, Brazil, Bangladesh and Egypt.

Venue: Auditorium, G H Patel College of Engineering & Technology, Bakrol Road, Vallabh Vidyanagar – 388 120

Participants: Girl students from various engineering colleges and polytechnic institutes of Gujarat

Resource Persons: Eminent speakers from DIC, NGO, Financial Institution & Few Successful Women Entrepreneurs.

Last date for Registration : 15/01/2011

Date of Confirmation : 18/01/2011
