GUJARAT TECHNOLOGICAL UNIVERSITY

BE - SEMESTER-V • EXAMINATION - SUMMER 2013

Subject Code: 151305	Date: 23-05-2013
----------------------	-------------------------

Subject Name: Air Pollution and Control

Time: 10.30 am - 01.00 pm Total Marks: 70

Instructions:

- 1. Attempt all questions.
- 2. Make suitable assumptions wherever necessary.
- 3. Figures to the right indicate full marks.

(a) Give the classification of Air Pollutants and sources of air pollution	07
(b) List important meteorological parameter that influencing Air Pollution and explain any one in Detail.	07
(a) Explain following Episodes:(I) Meuse valley (ii) Donora (iii) London (iv) Bhopal (v) Los Angeles.	07
(b) What is Maximum Mixing depth? How it is determined? What is its importance? OR	07
(b) What are the ill effects of CO on human health, vegetation, plants and property?	07
(a) Define a wind rose. Explain the importance of wind roses in air pollution studies.	07
(b) Write a detailed note on plume behavior.	07
OR	
(a) what is :Dry Adiabatic lapse rateø and the :Environmental lapse Rateø? Explain.	07
(b) Explain effects of Photochemical Smog.	07
(a) Explain A/F ratio in detail.	07
(b)Write a short note on Alternative Fuel. OR	07
	07
(b) Explain NOx control by Catalytic Reduction.	07
(a) Write a short note on Cyclone separator.	07
(b) What is noise pollution? Describe sources of noise pollution OR	07
(a) Write a short note on ESP with there advantages and disadvantages.	07
(b) Define Odour. Explain briefly the various methods of odour Control. ***********************************	07
	explain any one in Detail. (a) Explain following Episodes: (I) Meuse valley (ii) Donora (iii) London (iv) Bhopal (v) Los Angeles. (b) What is Maximum Mixing depth? How it is determined? What is its importance? OR (b) What are the ill effects of CO on human health, vegetation, plants and property? (a) Define a wind rose. Explain the importance of wind roses in air pollution studies. (b) Write a detailed note on plume behavior. OR (a) what is *Dry Adiabatic lapse rateø and the *Environmental lapse Rateø? Explain. (b) Explain effects of Photochemical Smog. (a) Explain A/F ratio in detail. (b) Write a short note on Alternative Fuel. OR (a) Write a short note on emission reduction by engine design changes. (b) Explain NOx control by Catalytic Reduction. (a) Write a short note on Cyclone separator. (b) What is noise pollution? Describe sources of noise pollution OR (a) Write a short note on ESP with there advantages and disadvantages. (b) Define Odour. Explain briefly the various methods of odour Control.
