GUJARAT TECHNOLOGICAL UNIVERSITY BE - SEMESTER-III • EXAMINATION – SUMMER • 2014

Subject Code: 130505Date: 30-05-2014Subject Name: Chemical Process Industries-1Total Marks: 70Time: 02.30 pm - 05.00 pmTotal Marks: 70			
Inst	ruction 1. 2. 3.		
Q.1	(a) (b)	Write a short note on IMI process for production of Phosphoric acid? Write in brief about Various Conditioning Methods for treatment of water?	07 07
Q.2	(a)	Explain in detail about converter section in DCDA process for manufacturing of Sulfuric acid?	07
	(b)	Discuss manufacturing of ammonia with neat flow diagram? OR	07
	(b)	Discuss frasch process for mining of elemental Sulfur?	07
Q.3	(a)	List the various processes for separation of water from brine? Discuss Reverse osmosis and electro dialysis in brief?	07
	(b)	Write a Short note: Explosive.	07
Q.3	(a)	OR Explain the role of cryogenics in manufacturing of industrial gases like Oxygen	07
C		and Nitrogen?	
	(b)	What is fertilizer? Explain the role of Nitrogen, Phosphorous and potassium in growth of plant? Draw block diagram for NPK fertilizer manufacturing?	07
Q.4	(a)	Compare Mercury cell, Diaphragm cell and membrane cell processes for chlorine- caustic soda production?	07
	(b)	Explain about various refractory used in industries?	07
Q.4	(a) (b)	OR Discuss Solvay process for Soda ash production? Explain Portland cement and its type in detail?	07 07
Q.5	(a)	Discuss the difference between sulphate process and sulphite process for the Production of pulp?	07
	(b)	Explain manufacturing of urea with neat flow diagram?	07
Q.5	(a) (b)	OR Describe with neat Sketch Manufacturing of Paper? What is glass? Classify glass?	07 07
