GUJARAT TECHNOLOGICAL UNIVERSITY

BE - SEMESTER-IV • EXAMINATION - SUMMER • 2014 Subject Code: 140702 Date: 23-06-2014 **Subject Name: Operating System** Time: 10:30 am - 01:00 pm **Total Marks: 70 Instructions:** 1. Attempt all questions. Make suitable assumptions wherever necessary. 3. Figures to the right indicate full marks. Explain the objectives and functions of operating systems. 07 **Q.1** (a) Define a process. Explain the process state transition with a neat diagram. 07 **(b)** What is thread and what are the differences between user-level threads and kernel 07 **Q.2** supported threads? Under what circumstances is one type "better" than the other? (b) Explain the Problem of Critical Section (CSP) through Producer Consumer Problem. 07 Explain any one Solution in detail. OR 2) Monitors 07 **(b)** Write short note: 1) Semaphores Q.3 Find average waiting time for Shortest job first scheduling, and Round robin scheduling (a) 07 algorithm. **Process** CPU burst time **P**1 6 P2 8 P3 5 P4 CPU burst time is given in millisecond and time quantum is 4. (b) What do you mean by Deadlock Avoidance? Explain the use of Banker's Algorithm for 07 Deadlock Avoidance with illustration. OR Consider the following set of processes with the length of CPU burst time given in the 07 O.3 (a) milliseconds. Arrival Time **Process** Burst time **Priority** P1 3 0 8 P2 1 1 1 P3 2 3 2 2 P4 3 3 P5 4 4 6 Calculate average turnaround time and average waiting time for First-come first served scheduling, Shortest job first scheduling and Priority scheduling algorithm. **(b)** What is Deadlock? 07 List the conditions that lead to deadlock. How Deadlock can be prevented? Explain the following allocation algorithms: 1) First-fit 2) Best-fit 3) Worst-fit **07 Q.4** (a) Write short note: 1) Direct memory access (DMA) 2) Device controllers 07 **(b)** What is fragmentation? What is the need of fragmentation? Explain the difference 0.4 (a) 07 between internal and external fragmentation. Write short note: RAID levels **07 (b)** Explain in details about file attributes and file operations. Q.5 07 (a) What is "inode"? Explain File and Directory Management of Unix Operating System. 07 **(b)** (a) Describe various file organization techniques. 07 0.5

Define distributed system. Explain the characteristics of distributed system.

07
