## GUJARAT TECHNOLOGICAL UNIVERSITY

**BE - SEMESTER-VII • EXAMINATION - SUMMER • 2014** 

•		Code: 172304 Date: 29-05-2	014
_	e: 02	Name: Manufacturing of Thermoplastics Materials 2.30 pm - 05.00 pm Total Marks as:	: 70
	1.	Attempt all questions.  Make suitable assumptions wherever necessary.  Figures to the right indicate full marks.	
Q.1	(a)	1 1 3	07
	<b>(b)</b>	compare the properties of LDPE and HDPE.  (i) Give classification of Thermoplastics and explain in brief. Give five examples of each.	04
		(ii) Classify engineering plastics based on their chemistry of origin and explain in brief.	03
Q.2	(a)		07
		<ul> <li>i) PE is hygroscopic material True/False</li> <li>ii) Generally crystalline polymers are fiber-forming in nature True/False</li> </ul>	
		iii) Chemical resistance of SAN is better than that of PSTrue/False	
		<ul> <li>iv) PMMA is superior to glass in terms ofstrength.</li> <li>v) Many properties of PP are differing than PE is due to presence ofgroup.</li> </ul>	
		vi) Continuous fibers of Nylon 6, 6 can be made by polymerisation.	
		vii)undergoes ring-opening polymerisation to produce Nylon 6.	
	<b>(b)</b>	•	07
	(b)	<b>OR</b> How is vinyl chloride polymerized? Describe with a neat sketch of the flow	07
	<b>(b)</b>	diagram, the suspension process of manufacturing PVC.	07
Q.3	(a)	Give structure, properties and application of polyvinylfluoride (PVF) and polyvinylidenefluoride (PVDF).	07
	<b>(b)</b>	1 2 2	07
Q.3	(a)	<u> </u>	07
	<b>(b)</b>		07
Q.4	(a)	What are biopolymers? List various biopolymers and explain polysaccharides in detail.	07
	<b>(b)</b>		07

Q.4	(a)	What are ion-exchange polymers? Give classification of ion-exchange polymers and list its various applications.	07
	<b>(b)</b>		07
Q.5	(a)	Write short note: (a) Spiro polymers (b) Ladder polymers	07
	<b>(b)</b>	Explain manufacturing of polycarbonate (PC) by interfacial polymerisation.  OR	07
Q.5	(a)	What are electro-conducting polymers? List various electro conducting polymers and give their applications.	07
	(b)	Give applications of the following polymers in various sectors- i) Liquid crystal polymer (LCP) ii) Polystyrene (PS) iii) Polyether ether ketone (PEEK) iv) Polytetrafluoroethylene (PTFE)	07
