GUJARAT TECHNOLOGICAL UNIVERSITY B. Pharm. – SEMESTER – VII • EXAMINATION – WINTER 2013

Subject Code: 270006Date: 07-12-2013Subject Name: Pharmacology-III			
•	e: 1().30 am - 01.30 pm Total Marks: 80	
Instru	1. 2.	Attempt any five questions. Make suitable assumptions wherever necessary. Figures to the right indicate full marks.	
Q.1	(a)	Classify semi synthetic penicillins. Write antibacterial spectrum and therapeutic uses of amoxycillin.	06
	(b) (c)	Explain in detail about mechanism of action and therapeutic uses of quinolones. Write in brief about antiemetic drugs.	05 05
Q.2	(a) (b) (c)	Classify anticancer drugs. Write in detail about paclitaxel. Write mechanism of action of 1. Co-trimoxazole 2. Rosiglitazone Write a short note on oral contraceptives.	06 05 05
Q.3	(a) (b)	Classify antimalarial drugs. Write pharmacological actions of quinine. Write in detail about mechanism of action, adverse effects, and therapeutic uses of pantoprazole.	06 05
	(c)	Write a note on aminoglycoside antibiotics.	05
Q.4	(a) (b)	Classify antifungal drugs. Write in brief about amphotericin B. Discuss in detail about mechanism of action, adverse effects and therapeutic uses of rifampicin.	06 05
	(c)	Write a short note on nitric oxide.	05
Q.5	(a) (b)	Classify drugs used in bronchial asthma. Discuss β_2 agonist as bronchodilators. Write in brief about mechanism of action, adverse effects and therapeutic uses of acyclovir.	06 05
	(c)	Write a short note on bacterial drug resistance.	05
Q. 6	(a)	Classify oral hypoglycemic drugs. Explain in brief about pharmacology of sulphonylureas.	06
	(b) (c)	Explain in brief about pharmacology of corticosteroids.Write mechanism of action and adverse effects of following:1. Tetracycline2. Dapsone	05
Q. 7	(a)	Classify anti thyroid drugs. Discuss in brief about mechanism of action and adverse effects of methimazole.	06
	(b)	Write differences in mechanism of action, adverse effects and therapeutic uses of estrogen and progesterone.	05
	(c)	Write a note on immunosuppressant drugs.	05
