

GUJARAT TECHNOLOGICAL UNIVERSITY
DIPLOMA ENGINEERING – SEMESTER – V • EXAMINATION – SUMMER-2017

Subject Code: 3355502**Date: 4-05-2017****Subject Name: PROCESS PIPING FABRICATION****Time: 2.30 TO 5.00 PM****Total Marks: 70****Instructions:**

1. Attempt all questions.
2. Make suitable assumptions wherever necessary.
3. Figures to the right indicate full marks.
4. Each question carry equal marks (14 marks)

- Q.1** (a) Define below terms. (any three) **07**
 (1) Alloy steel, (2) Coupling (3) Expansion Joints (4) Ambient Temp.
- (b) Describe duties and responsibility of piping field engineer. **07**
- Q.2** (a) Prepare lists of following piping elements: **07**
 1) Various types of pipe fittings.
 2) Various types of Fasteners.
 3) Various types of Valves.
 4) Various types of piping specialties.
- (b) Calculate area of (1) Sector, (2) Triangle, (3) Segment **07**
 from the given fig.No.1, Having Circle Radius (r) = 20 mm $\theta = 90^\circ$
- OR
- (b) Answer the following questions from given Piping ISO drawing with **07**
 necessary calculations:
 1. Write (a) Drawing No. (b) Revision No.
 2. Start point co-ordinates and End (1 and 2) point co-ordinates (N, E, EL).
 3.1 No. Of Site /Field Joint
 3.2 No. Of Shop/Spool Joint
 3.3 Total No. Of Joints
 3.4 No. of reducers with size
 3.5 No. Of Bends / Elbows with size.
 3.6 No. of spools in given Isometrics
 3.7 Calculate required pipe length with size.
 4. Total Amount of :
 1) Inch-Meter Erection In Piping Isometrics.
- Q.3** (a) Define and Explain “Reynolds number”. Compare Laminar and Turbulent **07**
 flow.
- (b) A spherical Storage tank is having O.D = 610 cm, Thickness (t) = 5 mm. **07**
 If Rate of Painting = 120 Rs. / m² and Cost of Raw material= 200 Rs. / Kg
 Find: 1] Inside volume of storage tank.
 2] Total cost of outside Painting.
 3] Total cost of Raw material of tank.
- OR
- Q.3** (a) Calculate the diameter of pipe to carry , **07**
 Q = Discharge = 300 lit / Min of water
 V = Maximum velocity = 15 M / sec, Also find the loss head due to friction
 [Loss of pressure due to friction] in pipe if, Length of pipe = L = 15 KM
 Assume
 Co efficient of friction = f = 0.015, Gravitation al constant = g = 9.8 M / sec².

- (b) Define Gasket & Classify Gasket based on various criteria. State properties, need and functions of gasket. **07**
- Q.4** (a) Define the term 'Pressure drop' (head losses) in piping? Explain the phenomena of pressure drop and state its causes. **07**
- (b) Describe with neat sketch "purging process" in pipe fabrication and full penetration pipe welding. **07**
- OR
- Q.4** (a) Draw piping symbol of (any seven)
 1) gate valve, 2) Concentric Reducer, 3) Expansion joint, 4) Elbow, 5) Tee, 6) pressure gauge, 7) Check valve, 8) Butterfly valve, 9) air vent **07**
- (b) Prepare PQR for following data:(Assume suitable additional data if necessary) **07**
- 1) Material : SA 516 GR 70, 2) Pipe dia : 400 mm
 3) Electrode : E-7018 of ϕ 2.5 \times 350 mm, 4) Thickness of pipe:12 mm (assume)
 5) Welding process : GTAW, 6) Position : 5G/6G
- Q.5** (a) Define "pipe support" and describe function of pipe support. **07**
- (b) Describe with neat sketch Expansion Joint. **07**
- OR
- Q.5** (a) State factors affecting selection of paint and coating. **07**
- (b) Compare up hill & down-hill welding with neat sketch. **07**

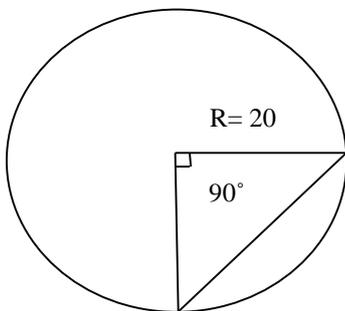

Fig No.1
