OR

- Q.4. (a) "A formal process to handle the project risk minimizes the costs and delays." Do you agree with the statement? Explain with respect to risk management process.
- **Q.4. (b)** Discuss the role of various participants in the Public Private **07** Partnership arrangement for infrastructure projects.
- Q.5. Mr. Krunal Pathak has completed his engineering from one of the premier institutes of management in India. He did his specialization in the field of production engineering. After pursuing this degree, he worked in a leading corporate, for a period of two years. During that time period, he realized that he should start some business of his own instead of working for others and he decided to start his production unit. He has thought of setting up banana fiber extraction unit in Gujarat. During his study, he came across this project and saw a great opportunity in this field. He needs Rs. 20 lakhs (fixed and working capital) to start this unit. He is able to manage Rs. 5 lakhs from his internal sources. He is exploring various other options for raising the balance amount. He is approaching the investors. But everyone is demanding a project proposal. Since he is an engineer, he has technical knowhow but lacks expertise in writing a business plan.

Based upon the above case facts, please answer the following questions and make suitable assumptions wherever required.

- 1. Please guide Mr. Krunal Pathak on the content of writing a project report for this proposed venture.
- 2. Mr. Krunal is evaluating various equity and debt options for raising the fund required for his project. Please advise him which option is best suited in this situation and why? Also guide him specifically for various products and services of Small Industries Development Bank of India (SIDBI).

OR

Q.5. Mr. Parag Soni and his team wants to develop a network diagram with the help of the following information.

Activity	Nodes	Time (Days)
A	1-3	3
В	1-2	4
С	2-3	3
D	2-5	5
Е	2-4	6
F	3-5	4
G	4-6	5
Н	3-6	3
I	5-6	5

Answer the following questions.

- 1. Develop the network diagram and find the critical path. Also find the time to complete the project.
- 2. Calculate Earliest Start (ES), Earliest Finish (EF), Latest Start (LS), Latest Finish (LF) and the total float for all the activities.
