07

(b) Zindal Ltd have two divisions . Division P & Division Q . The Division P produces three products : A , B & C . Normally these products are sold to both outside customer & customer & to Division Q . The Division Q uses products A , B and C in manufacturing products X, Y and Z respectively . In recent weeks , the supply of products A ,B and C has tightened to such an extent that the Division Q has been operating considerable low capacity because of lack of these products . Consequently ,the Division P has been told to sell all its products to the Division Q . The financial facts about these products are as follows :

(Rs.)

The Division P				
	Product A	Product B	Product C	
Transfer Price	30.00	30.00	45.00	
Variable	9.00	18.00	15.00	
Manufacturing Exp				
Contribution per	21.00	12.00	30.00	
unit				
Fixed Costs (total)	1,50,000	3,00,000	1,50,000	

The Division P has a monthly capacity of 50,000 units . The processing constraints are such that capacity production can be obtained only by producing at least 10,000 units of each product . The remaining capacity can be used to produce 20,000 units any combination of the three products . The Division P cannot exceed the capacity of 50,000 units .

Ouestions:

1.If you were the manager of the Division P , what products would you sell to the Division Q ?

2. What is the amount of profit that you would earn of these sales?

OR

- **Q.4** Explain advantages of having profit centers and difficulties with creation of **07** (a) profit centers.
