Krushit joined Anand Computers (**Anand**) in December after a successful stint at Arpit Computers (**Arpit**), where he had worked as an assistant programmer. Krushit felt that Anand offered better career prospects, as it was growing much faster than Arpit, which was a relatively small company. Krushit joined as a Senior Programmer at Anand, with a handsome pay hike. He joined Milan's five-member team. While he was efficient at what he did and extremely intelligent, he had neither the time nor the inclination to groom his subordinates. Time and again, Krushit found himself thinking of Rajendra, his old boss, and of how he had been such a positive influence. Milan, on the other hand, even without actively doing anything, had managed to significantly lower his motivation levels.

## **Questions for Discussion:**

- 1. What, according to you, were the reasons for Krushit's disillusionment? Answer the question using Maslow's Hierarchy of Needs.
- 2. What should Rajendra do to resolve his situation? What can a team leader do to ensure high levels of motivation among his/her team members?
