Q.1		Read the case-let carefully and answer the questions that follow: Arthur Edward Anderson (1885-1947), the founder of Arthur Anderson & Co. must have turned in his grave in 2001, as the auditor firm founded by him became a synonym for scandal in the accounting profession. On 15 th August 2001, Sherron Watkins, an employee of Enron, questioned the company's accounting practices, in a single-page letter to its CEO. Enron, the energy giant that ruled the world, and its auditor Arthur Anderson & Co., became the ridicule of the world. In early 2002, the US Justice Department began criminal investigations into Enron's bankruptcy. In 2002, Arthur Anderson was convicted by the lower and appellate courts for obstruction of justice. The firm had worked hand in glove with Enron and cooked its account books. The audit firm that once had an 85,000 strong workforce, now had closed offices and business interests around the globe. The firm's name is so tarnished that there is no other business going on in it, other than attending to over a hundred civil suits.	15
