Q.5 Management of an Indian company is contemplating to import a machine from USA at a cost of US\$ 15,000 at today's spot rate of \$0,0227272 per Rupee. Finance manager opines that in the present foreign exchange market scenario, the exchange rate may shoot up by 10% after two months and accordingly he proposes to defer import of machine. Management thinks that deferring import of machine will cause a loss of Rs. 50,000 to the company in the months.

As the Finance Manager of Company, you are asked to express your views, giving reasons, as to whether the company should go in for purchase of machine right now or defer purchase for two months.

OR

Q.5 Sunshine Ltd. is engaged in the production of synthetic yarn and 14 planning to expand its operations. In this context, the company is planning to import a multipurpose machine from Japan at a cost of ¥ 2,460 lakh. The company is in a position to borrow funds to finance import at 12% interest per annum with quarterly rests, India based Tokyo branch has also offered to extend credit of 90 days at 2% per annum against opening of an irrevocable letter of credit. Other information are as under:

Present exchange rate : Rs. 100 = ¥ 246
