Enrolment No.

GUJARAT TECHNOLOGICAL UNIVERSITY

M. E. - SEMESTER - I • EXAMINATION - SUMMER • 2014 Subject code: 711303N Date: 19-06-2014 Subject Name: Highway Material and Construction Time: 02:30 pm - 05:00 pm **Total Marks: 70 Instructions:** 1. Attempt all questions. 2. Make suitable assumptions wherever necessary. 3. Figures to the right indicate full marks. Q.1 (a) Explain surface area and void concept of Material selection for Pavement 07 Design. Discuss the significance of void area concept over surface area concept in terms **(b)** 07 of economy and mix Performance. Q.2 List various tests on aggregates? How do they help us to study the influence of 07 **(a)** shape of aggregates on mix Performance? What is job mix formula? How is it Prepared and verified? 07 **(b)** OR Justify the statement that õ It is advisable to select a gradation with sufficient 07 **(b)** voids in the mixö **Q.3** Differentiate between semi dense bituminous mixes and bituminous concrete. 07 **(a)** List the fillers added to mix to achieve economy, reuse? How do they influence 07 **(b)** the Performance of the mix? OR Differentiate between stone mastic asphalt mix and crumb rubber modified 07 **Q.3** (a) bituminous mix. Explain how the mixing temperature and mixing process influence the 07 **(b)** performance of mix. **Q.4** Explain Marshal method for Bituminous concrete mix design. 14 **(a)** OR (a) Explain how the grade, viscosity, ductility, film thickness influences the **Q.4** 07 Performance of Bituminous mix? List and explain how various binders add mixtures influences the Performance **(b)** 07 of mix. 0.5 Explain with neat sketch working of Paver and roller? 07 **(a)** Suggest soil stabilization Technique adopted for providing roads along coastal 07 **(b)**

OR

Q.5	(a)	What is Hot mix Plant? Explain the working of hot mix Plant with neat sketch.	07
-----	------------	---	----

belt with Problematic soil like clay.

(b) Differentiate between 1) Abrasion and attrition. 2) Flakiness and elongation. 07
