GUJARAT TECHNOLOGICAL UNIVERSITY

ME - SEMESTER-IV • EXAMINATION- SUMMER • 2014 Subject Code: 740401 Date: 04-06-2014 Subject Name: Wireless and Mobile Network Architecture Time: 02:30 pm - 05:00 pm **Total Marks: 70** Instructions: 1. Attempt all questions. 2. Make suitable assumptions wherever necessary. 3. Figures to the right indicate full marks. What is handoff? Describe Inter-BS Handoff and Intersystem Handoff Q.1 07 **(a)** What is the significance of link transfer? Explain MCHO link transfer 07 **(b)** Q.2 Describe signaling system no. 7 07 **(a)** Explain IS-41 authentication and compare +without sharing schemeø and 07 **(b)** ÷sharing schemeø OR Compare adaptive algorithm AA1 and AA2 07 **(b) Q.3** Draw PACS architecture and interface and describe in brief 07 **(a)** Draw GSM architecture and explain functions and significance of each block **(b)** 07 OR Q.3 Write a note on security in GSM networks 07 **(a)** Give comparison of HSCSD and GPRS 07 **(b)** Write note on USSD **Q.4 (a)** 07 What are the main parts of GSM SMS protocol stack? Describe following 07 **(b)** types of short message: user-specific, ME-specific and SIM-specific OR Describe in brief about WAP model, gateway and protocol Q.4 **(a)** 07 Compare W-CDMA and cdma2000 and explain quality of service in 3G **(b)** 07 Q.5 **(a)** Describe WLL architecture with diagram 07 Write note on mobile IP 07 **(b)** OR Write a note on GSM operation and maintenance 07 Q.5 **(a)** Describe international roaming for GSM **(b)** 07
