Enrolment No._____

GUJARAT TECHNOLOGICAL UNIVERSITY M. E. - SEMESTER – I • EXAMINATION – WINTER 2012

Subject code: 711506NDate: 10-01-2013Subject Name: Basics of Reinforced Concrete and Masonry ConstructionTime: 02.30 pm - 05.00 pmTotal Marks: 70Instructions:

- 1. Attempt all questions.
- 2. Make suitable assumptions wherever necessary.
- 3. Figures to the right indicate full marks.

Q 1	А	Write short note on air entrained concrete.	7
	В	Explain soundness test in detail with neat sketch and also specify its Indian standards.	7

- Q 2 A What do you understand by the term curing of concrete? What is the significance of curing 7 and enlist various techniques of curing of concrete.
 - B Briefly explain the causes and control of scaling and D-cracking in concrete. What is the 7 origin of laitance and what is its significance.

OR

- B What do you understand by the terms polymer concrete, latex-modified concrete and 7 polymer impregnated concrete? What is the principal consideration in the design of polymer concrete mixtures?
- Q3 A Using IS-10262(2009) method of mix design, find out proportions of concrete for following 14 data:

Grade of Concrete: M 25 Degree of Control: Very good Maximum size of Aggregate: 20 mm Specific gravity of Cement: 3.15 Specific gravity of FA: 2.65 Specific gravity of CA: 2.80 Condition of Exposure: severe Workability: Slump 75-100 mm Refer table 1 to 4.

		UK	
Q 3	А	Write short note on earthquake resistant features of masonry.	7
	В	Write short note on ready mix concrete.	7
Q 4	А	Write short note on fibre reinforced concrete.	7
	В	In spite of the cellular structure of aggregate, lightweight concretes show less micro cracking and excellent durability. Why?	7
		OR	
Q 4	А	Enlist the factors that cause distress in structure. Discuss the precautionary and remedial measures.	7
	В	What is meant by jacketing? Discuss different methods of jacketing.	7
Q 5	А	State the steps for brick masonry design with a suitable example.	7
	В	Explain in detail the procedure to find aggregate crushing value and also mention the Indian standards for the same.	7

A State the types of steel to be used as construction material. Mention the standards and test 7 required for the same. Q 5 7

B Explain in sho	ort the procedure for the	e damage assessment	of structural element.
