

Expert Opinion About GTU'S Research Week For Faculty of Pharmacy Research Week Schedule (03/04/2013 to 16/04/2013)

Date of Research Week :- 06/04/2013

Dr David Banji (Hyderabad): "It is fantastic, scientifically it is good. The research week is organized with a good technique and logic. This is required for current generation. Students receive platform for comparison, such that they can increase their knowledge level.

Suggestions: time for evaluation of each student must be at least 45 min, so that the real vision of the university may be achieved."

Dr R C Mashru (MSU Baroda): "This is very fine, all students are periodically examined periodically, good office areas are provided. Students receive a vast knowledge and when they got to industries they will learn things easily.

Suggestions: Students must refer to the basic methods instead of referring the published paper."

Dr Yuvraj Singh Tanvar (Udaipur) : The concept of external review is fantastic, the students scrutinized in such a way will have a good career when they pass out from the university. I would love to come back for such kinds of research weeks to GTU.

Suggestions: An overall good experience.
