This is a cultural event which will be celebrated annually in all the five Zones of Gujarat technological University every year. Parul, not only aims at a unique work culture, but also promotes the all-round development of students. These events not only provide a vibrant ambiance but also invigorate the students to excel in their respective areas of interest. Students get ample opportunities to let out their creative energies and develop skills through sporting events, cultural events, college festivals, debates, inter college competitions, etc. This helps them to develop their soft skills, like cross cultural communication and networking with locals to understand local culture and lifestyle. Parul Institute of Engineering and Technology hosted consecutively for the 2nd time GTU youth festival for V. V. Nagar Zone.

The youth festival aims to propagate the concept of national integration, spirit of communal harmony, brotherhood, courage and adventure amongst the youth by exhibiting their cultural prowess in a common platform. This festival provides a nation-wide exposure to the youth for the expression and fulfillment of their cultural talents and aspirations. By participating in such program, students would be able to have the feel of real world along with technology & get an opportunity to show their talents & skills.
