

Leading the Fight Against Thalassaemia
THALASSEMIA AND SWINE FLU AWARENESS CAMPAIGN

&

॥ परिशयो अनुवर्ते ॥
BLOOD DONATION CAMP

*Furthering the tradition of Gardi Vidyapith, this year also, we are going to organize a **Thalassaemia and Swine Flu Awareness Campaign**, a **Blood Donation Camp** and an **Eye Donation Camp** at our campus on **October 01, 2010**.*

*Nurturing the twig we had planted previous year, this year also we are commencing a **Thalassaemia and Swine Flu Awareness Campaign**, a **Blood Donation Camp** and an **Eye Donation Camp**. The objective of these activities is to inculcate the awareness among the society in general and among the youth-students in particular. The number of patients carrying Thalassaemia Major needs blood transplantation every month. The blood banks are unable to provide the sufficient supply of blood.*

The Vidyapith is happy to cite here that last year our attempt was proved to be huge success as all the first semester students had undergone the Thalassaemia test and together we could collect as many as 177 bags of blood, which is a history in itself.

This year too, we wish to set new milestones with our humble efforts to avail the future generation of society with vigilant and jovial milieu.

We most cordially invite you all to come and encourage the volunteers who would come forward to donate blood and eyes and urge you also to donate and support our Campaign towards healthier and happier humanity.

Venue: *Mechanical & Electrical Engineering Building, Gardi Vidyapith*

Time: *8:00am onwards*

With regards,

Coordinators,
Thalassaemia Awareness Campaign and
Blood Donation Camp
