Dt. : 03/09/2009

To,
Head of Institute,

Sub: To carry out various social activities like blood donation camp, Thalesemia awareness & testing etc for the students of Gujarat Technological University of Gujarat state

Sir,

Gujarat Technological University is formed to excel in technical education. Along with academic activities, all institutes have to give their best contribution in the social activities like blood donation camp, Thalesemia awareness & testing, health (hemoglobin, related to prevailing diseases etc) check up for the students of Gujarat Technological University of Gujarat state. The aim to carry out these activities for the students is to inculcate concept of social responsibilities along with awareness of their own health status.

1. Organizing Blood Donation Camps:

Blood is a unique product which can not be made in factory. So donation of blood has its own importance & significance. Blood donation will help the needy people in the emergency & will save many lives. Gujarat already became the leader in blood donation activity in nation. Now it's our time to contribute in the area of blood donation. We also make students aware about their social responsibilities. All institutes are requested to give their best. It is planned to organize systematic blood donation drive in the state by colleges under the umbrella of GTU. It will become outstanding contribution for the state. Various useful activities for society are carried out by Indian Red Cross society like blood donation camps, Thalesemia awareness & testing. Ahmedabad is the leading city in this activity. Indian Red Cross society will help & coordinate blood donation drive. All institutes are requested to co-operate officials from Indian Red Cross society.

2. Health check up

Healthy students are sign of prosperous nation. Following activities are planned under this category.

- **Thalesemia awareness & testing**

It is compulsory for all institutes to carry out Thalesemia awareness camp & testing all the students for Thalesemia.

Awareness camps

Checking Hemoglobin of students & giving information about prevailing diseases etc can be carried out by the institutes.

All head of institutions are requested to take this matter seriously & to carry out these social activities because it is very helpful to the society as well as students of the GTU. Prof C S Sanghvi Assistant Professor, Applied Mechanics will co-ordinate the whole project. His contact No 94283 50436 & email address is cssanghvi@rediffmail.com. Dr Chaitanya Vora, Director, Ahmedabad Red Cross Blood Program will co-ordinate this project on behalf of IRCS. His contact No is 98250 94910. Members of IRCS are authorized to carry out these activities & all Institutes have to support IRCS.

Institutes have to appoint a team of faculty members & students to carry out these activities & have to report Prof C S Sanghvi in the format attached as Annexure I & II herewith. Institutes have to report before final examination of the first semester.

Note: Awards will be given to those institutes who will perform outstanding to carry out such activities.

Positive response is expected

Thanking you.

Yours,

S/d

Vice Chancellor

Annexure I

Information of Team of faculty members & students responsible to carry out these activities along with their mobile phone numbers & E-mail Address

Sr No	Name Of Faculty Co-ordinator & faculty members of the team	E-mail Address & Phone Numbers	Name of Student co-ordinator & other team members	E-mail Address & Phone Numbers
1				
2				
3				
4				
5				
6				

Annexure II

Reporting Format

Blood Donation

Sr No	Total Number of students enrolled in the institute	No of students donated blood in blood donation camps	Percentage of blood donation	

Thalesemia Awareness & testing - Compulsary

Sr No	Total Number of students enrolled in the institute	No of students tested for Thalesemia	Percentage of total strength	Second Campaigning for students who detected as Thalesemia Minor
