

Circular :

Nomination as a correspondent from the Colleges, faculties , students and other stake-holders

Calling those who have the talent to write for a newsletter

GTU Innovation Council plans to publish Newsletters to show case the brilliance of our students and faculties in the public domains. We want to publish news about all the activities of our Colleges and their students and teachers. The newsletters may also have interviews with various stake-holders about issues of interest to the University community.

GTU invites nominations from interested student and faculty members from all GTU Colleges to send their names with brief details which will prove their candidature with merit.

For the Newsletters, GTU would like to have from each GTU college

- (i) one or two faculty members and
- (ii) student correspondents from each year .

The selected persons will have to coordinate with the Udisha clubs in their Colleges. They will have to work with the local Sankul Committee members and other stake-holders in the working of GTU.

The interested and dedicated students/faculties may send us their name to gtu_innovation_council@gtu.edu.in or gic@gtu.edu.in by 6th August 2011.
