New MBA:

Faculty Development Program (FDP) on July 11-15, 2011

(Only for MBA Institutes under GTU)

As you know, the New MBA Program is announced on the GTU web for Academic Year beginning July/August 2011, which includes New Electives and New Specializations. The detailed syllabus is being announced this week.

With a view to **improve teaching quality, enhance teaching capabilities and train** learned Faculty members of **MBA Program** offered by all **MBA Institutes / Colleges, Gujarat Technological University (GTU)** proposes to organize **Faculty Development Program (FDP) for New MBA Program at Ahmedabad** for the benefit of GTU MBA institutions and Faculty Members.

A week-long FDP, covering the rationale and pedagogy of New MBA program as well as details of **'how to teach'** the new subjects, is designed to improve teaching quality, evaluation and professionalism which can then lead to self-propelled changes in teaching-learning process. The need of **Faculty Development Program** is felt so as to make the faculty members aware about the latest methods and techniques, particularly the **Case Method of Teaching**, and enable our faculty members to understand appropriate techniques and methodology for use in the class while teaching. The **FDP** will also help in developing better-equipped and knowledgeable faculty members, who will hopefully become more **effective role models** for today's smart students.

Objectives of FDP for New MBA

1. **Brief:** the MBA faculty members about the New MBA Program with reference to the existing program, which shall be discontinued from Academic Year 2011-12.
2. **Impart:** knowledge about new teaching pedagogy, emphasis and improvements in new subject areas for better teaching and results.
3. **Teach: 'how to teach' Module 5: Practical Module** in all subjects: **existing as well as new, and 'how to examine' Module 5.**
4. **Guide:** about 'how to design' Question Papers for Internal Test and Final Examination.
5. **Emphasis:** the habit of **research** using various journals / magazines / case studies / projects / assignments etc. for increasing effectiveness of self (teachers), students as well as teaching-learning process.
