

GUJARAT TECHNOLOGICAL UNIVERSITY

GTU/Circular/12/3762

Date:- 11-04-2012

Sub: Questionnaire for Diploma curriculum development with industry survey.

Dear Academicians

Gujarat Technological University is re-designing the curricula of all the diploma engineering programmes to match with the need of the industries. For this purpose, GTU has collaborated with National Institute of Technical Teachers' Training and Research Bhopal (NITTTR Bhopal) who is having the expertise in developing the curricula for technical educational programmes at national level.

It has been decided by GTU and NITTTR Bhopal to design the curricula on the competency-based approach so that GTU pass outs students are not only well – versed with the theoretical aspects but also able to perform well in the industry when they join the industry. Once this curriculum is developed, it would guide the teachers and students how to achieve the identified competencies.

For the project, this questionnaire is jointly developed by GTU and NITTTR, which is designed to identify the entry-level competencies expected out of diploma holders from the industries. This Questionnaire seeks the outcomes that are required to perform the jobs independently in an industry in order to avoid the present long-term training program conducted for the newly recruited fresh engineering diploma holders.

Since you all have been working with academic institutions and having a good rapport with industries through student training and placement, visit, expert lecture series, exhibits etc, I would request you to contact different industries at individual level/department level or by forming strategic group within your institute. The response collected by you will be of great use to arrive at a demand driven module, fulfilling industry needs and to bridge the gap between academic institutions and industries.

I seek a valuable response and cooperation from all of you.

Dr. Akshai Aggarwal
Vice Chancellor,
Gujarat Technological University

Note:

For more information feel free to call Prof Indrajit Patel 98980-34464 or Asso. Dean from your zone.

You can mail your collected data to cdc@gtu.edu.in or zone3@gtu.edu.in
