

## GTU ANNOUNCES A NEW COURSE OFFERING FOR GTU MBA STUDENTS

### “HOW FINANCIAL MARKETS FUNCTION”

**A GTU Certificate Course for those, who have completed their MBA**  
(MBA students may also join the Course)

*To be offered in the evenings*

### **Open for Pre-registration**

#### **FOR WHOM:**

In its continuing endeavor to strengthen its MBA program, GTU now offers a Certificate Course for those, who have completed their MBA. This can also be considered as an additional, optional specialization for MBA students of GTU Programs, in which the Specialization is offered during the third and the fourth semesters of MBA.

#### **WHY THIS COURSE?**

Financial Markets today are major drivers of economies globally and in India. The Financial Services Sector, including **Financial Market participants, offers significant employment opportunities to management students.**

Besides the essential theoretical and practical skills in Financial Management and Management of Financial Services, with this programme, GTU aims at imparting essential industry knowledge for students to be better prepared for careers in Financial Markets.

Being a greater career and practice oriented course, GTU has envisaged an additional certification by the Financial Market Regulator, accepted by the Industry Employer and required by regulators for jobs in Financial Markets Institutions.

Knowledge of ‘How Financial Markets Work’ is **essential for any management career** – in the Financial or the Corporate Sector, whether for financial or marketing or even operations management careers.

#### **PROGRAM PARTNERS:**

GTU certificate course and additional specialization in Financial Markets is being offered with support from a leading stock exchange and a reputed financial markets education institution.

## **COURSE OBJECTIVE**

This course in How Financial Markets Function represents a model of career focused, value added professional training for MBA students. The objective of the certificate course is to open up professional careers in financial markets, to work with financial institutions and market practitioners, or even in corporate finance jobs.

## **COURSE STRUCTURE:**

The course has been structured as an additional specialization option for the second year MBA students, with 6 courses and 15 credits.

For past MBA students, the same 6 courses and 15 credits will qualify them for the award of a certificate upon successful completion.

## **COURSE CONTENT**

This Course in How Financial Markets Function aims at introducing students to the Financial Markets structure, participants, products and services and the regulatory issues, covering all major market segments – Equity, Debt, Currency and Commodity. At the end, students will also be taken through the current issues in the markets by the practicing market professionals.

## **EVALUATION and CERTIFICATION:**

Students will be required to pass professional certification examinations recognized and required by financial markets regulators as official qualifications that will enable the students to qualify for jobs with all financial markets participants.

## **COURSE CALENDAR AND TIMING:**

The course will be offered starting January 2013 for past MBA students.

The course can also be considered as an additional specialization for students of Semester III & IV for second year MBA students of the GTU program.

The course timings and duration will be announced later.

## **PRE REGISTRATION:**

Students are encouraged to pre register for this unique career oriented programme with Registrar's office at GTU by sending an e-mail to the following address: [FinMarketCourse@gtu.edu.in](mailto:FinMarketCourse@gtu.edu.in)

Further details of the programme including fee structure will be provided later.
