Gujarat Technological University

No.GTU/E-in-out/1461   13th Feb., 2012

Announcement

e- inward and e- outward system

GTU has started its *e-inward* and *e-outward* system to make communication between institute and university more effective. All institutes have been already provided a link along with user-id and password to make use of a new method of communication - *e-system* which saves time and money by preventing unnecessary travelling of students as well as institute people to GTU. So please ensure that student's applications/ institute correspondence to GTU are forwarded by institute head using e-inward system. For smooth usage of the e-system, the institute heads are informed to make proper arrangements to upload the documents through e-inward system using the link provided by the university.

For any query kindly contact through email: **ankita@gtu.edu.in**
