Polytechnics & Technician Education in Gujarat

Polytechnic Diploma Institutes are, basically, governed by Commissionerate of Technical Education, Gujarat State, private aided trust and Private self-financing trust/body. In Gujarat total numbers of Diploma Institutes are 93 and the numbers of seats are approximately 55,000. The Gujarat Technological University is the largest University in Gujarat and has, recently, launched its new Diploma Curriculum. It is based on the large industry survey and different needs of Industry. Diploma Engineering Institute has contributed in the development of Gujarat State. Even today, the Diploma Engineering Institutes are having great Importance in Academics and Industries.

Gujarat Technological University

Content Management System (Basic Engineering Drawing)

Recently, GTU has launched a new curriculum in various branches of Diploma Engineering. Basic Engineering Drawing is an important subject and also known as the Language of Engineering. All the branches have to study this subject. The result analysis of last few years, the number of passing students in this subject is alarming.

The present workshop is arranged for the faculties to have an over-view of new curriculum and to have exchange the Ideas/views of experienced faculties. Even, we have new faculties in many Institutes, from whom we may have innovative ideas and Creative methodology of Teaching. Moreover, we share and synchronize the teaching process, if necessary, for various types of Topics and Sub-Topics of the new Syllabus. We hope this will help to steer and motivate the New Century students', of course, the faculties, too.

We wish to achieve Lucid Learning embedded with Better quality , Student Centered Teaching-Learning process, Enhanced Interest & Adoption by all students and Groom the student for better skilled Diploma Engineers.
