

**Class:** Bachelor of Engineering

**Name of the Course:** Computer Programming and Utilization

## **Learning Management System - Web and Mobile Application Development**

Under the Active Learning-Creating Excitement in the classroom project, GTU has decided to develop a “**Learning Management System (LMS) for CPU**” for assisting the learning processes. LMS will help connect the students and faculties across the state for better knowledge sharing as well as for making the teaching-learning process more **interactive and exciting**.

**Mr. Satvik V. Khara**, HOD, IT- Silver Oak College of Engg. & Tech. has come forward to accept the responsibility as the Coordinator – LMS, Live projects for CPU. The development of LMS for CPU will provide opportunities to students to learn while working on a live project.

Students from final year, who want to participate in development of the LMS projects, may apply to [cpu@gtu.edu.in](mailto:cpu@gtu.edu.in). The students, who are short-listed for the project, may be able to use it as the IDP for their Final Year Project.

Please apply on or before Date 03/07/2012, 11:00 am (1<sup>st</sup> Phase) if you fulfill the following requirements:

**Requirement: Students should be from GTU affiliated institute. An applicant should be sound in web application or mobile application development.**

**Technical Skills required from the students:**

1. For Web Applications: Web designing/PHP/JS/MySQL (Must be sound in at least one of these technologies.)
2. For Mobile Applications: Android/iPhone/Cross platform technologies like PhoneGap etc.
3. Students who have already worked on live projects will be preferred.

**You can meet Mr Satvik V. Khara on Tuesday, 3<sup>rd</sup> July 2012 at 11.00am at GTU Conference room.**
