

GUJARAT TECHNOLOGICAL UNIVERSITY, AHMEDABAD

organizes a meeting on

Designing Structure of Technological Universities

on

June 16th, 2012 at 09:30 am

at

**Government Circuit House
Annexe, Shahibag, Ahmedabad.**

Vision:

- To make GTU a hub of research, technology and entrepreneurship.
- To develop new innovative and revolutionary ways to make GTU a world class university.
- To change the educational system, in such a way that it serves the needs of the people of Gujarat

Mission:

- To create institutes and centers of excellence to impart state of the art education, training and research in the field of Science, Technology and Management in general. To create capabilities to develop knowledge, skill and competence at various levels. To create capabilities to upgrade infrastructure of global standards for education, training and research in the areas related to Engineering, Technology and Sciences.
- To provide inter-relationship for national and international participations in the fields of Science, Engineering, Technology and Management.
- To establish close linkages with industries in order to make teaching, training and research at the University, relevant to the needs of industries at national and international levels.

- To develop opportunities for inter constituent collaboration: e.g. between MBA and Engineering students.

Registration:

All Trustees, Principals and Directors of GTU affiliated institutes can participate in meeting. Please register on fdp@gtu.edu.in or before 14th June, 2012.

Objectives of this Project:

- To develop a system of Governance which GTU is able to integrate education, training and research in its four disciplines namely Engineering, Pharmacy, Management and Computer Applications at the level of Diploma, Degree, Post Graduation and Research.
- To identify those organizational components which are needed to pursue the objectives of GTU and to monitor its activities related to admission, education, training, research, industry interaction, inter institute collaboration and international collaborations.
- To sensitize the members in all institutions at all levels and to encourage them to put in their best efforts in making GTU a World Class Technological University.

GTU at a Glance:

Gujarat Technological University is a relatively new technology University, which caters to the entire field of science and technology. Engineering, Pharmacy, Business studies (MBA programs) and Computer Applications (MCA) in Gujarat. All the Colleges in the four fields in Gujarat are affiliated to this University

Today the University has about 4, 50,000 students, a large number of Master's programs and a robust doctoral program. It has about 500 Colleges affiliated to it. We are probably the University with the largest Post-Graduate program in the world. We are determined that starting from this academic year, each one of the Master's and Doctoral Thesis at GTU should become world-class and we are taking a number of steps to achieve the objectives.

GTU is continuously organizing seminars, workshops and conferences to encourage research and to bring our researchers in active contact with the researchers from outside the University. Our Faculty Development Programs are organized at each and every week-end, during the two semesters at multiple places in the state.

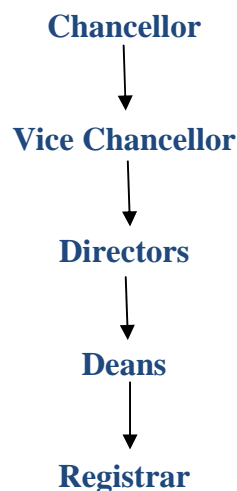

GTU Innovation Council is the most active Innovation Council in the country. On 25th June 2011, GTU established Skills Council in Marketing, Skills Council in Human Resources & Organizational Structures and a Skills Council in Financial Services.

We are going to have about 50 Post-Graduate Research Centers in the coming years. Each of

the Research Centers is designed to nurture the research students and become an open forum for intellectual inter-action with the society and the world. Reputed academicians, business professionals and researchers from other institutions from all over the world may come to the GTU Centers for delivering learned talks or for study.

GTU believes that technology can create a better quality for life and quality education in technology can help eliminate poverty. We hope that GTU's graduates will deliver their best to build a new India.

Set up of the University:

Vice Chancellor shall be the Principal Executive and Academic officer of the University. The Directors shall assist the Vice Chancellor in

managing the administrative, academic and other affairs of the colleges or centers.
