

Gujarat Technological University is the largest University in Gujarat and has recently launched its new Curriculum for Diploma Engineering. It is based on the large survey and the needs of different kinds of Industry.

Mathematics is an important subject and all the branches have Mathematics in course structure. But for last few years, the number of passing students in Maths is alarming. The One Day workshop is arranged to have a review of new curriculum and to exchange the ideas/views of experience faculties regarding this subject. GTU has new faculties in many of its affiliated Institutes from whom we may have innovative ideas and modern thinking regarding this subject. Moreover, we may share the Impact of this new curriculum. If possible faculties are requested to bring the result of Internal Exam, so as to enable us to develop suitable changes in the teaching methodology in the academic term. We hope this will help to motivate the new century students', and of course, the faculties, too.
