Unisys Cloud 20/20 V4 Student Technical Contest-Demonstrable Student Project of the Year 2012

Unisys Cloud 20 / 20 Version 4.0, Demonstrable Student Project of the Year 2012, Student Technical Project contest is now open for registration. Students/faculties are appealed to show their technical prowess and compete against the best technical minds in India.

After three successful contests, Unisys is back with Cloud 20/20 Version 4.0, giving you the chance to showcase your technical abilities in the rapidly evolving cloud computing industry.

This year, the focus is on the following topics:

- · 	Automation for cloud computing

- · 	Virtualization

- · 	Application development for the cloud

- · 	Security issues in the cloud

- · 	Moving workloads from datacenters to the cloud

- · 	Consumerization of IT

- · 	Potential Future Technologies, Open source Technologies & Disruptive Technologies

Make the best use of this platform to showcase your innovative and path-breaking technical ideas.
