## MIT Technology Review Innovators under 35 India Awards

### Call for Nominations 2013!

Massachusetts Institute of Technology's MIT Technology Review India opens the nominations for the 2013 Class of Young Innovators under the Age of 35 Awards. The MIT Technology Review Innovators Under 35 India Awards are designed to recognize the top innovators in India, who are under the age of 35 as on October 1, 2013. They must be citizens of (or work in) India. The goal is to acknowledge the development of new technology or the creative application of the existing technologies to solve problems and to reward ingenious and elegant work that matters to the world at large--not just to peers in a particular field or industry. The evaluations would be done between January 10 and January 20, 2013.

We rely on the help of experts to ensure that we honor the most outstanding candidates and we seek your help in identifying innovative young men and women who can qualify for the 2013 list of MIT Technology Review's Innovators under 35 India Awards. **The deadline for submitting the nominations is now extended to January 10, 2013.**

The link for submitting the nominations is

The awards span a wide range of technologies from biotechnology, arts and entertainment, software development to semiconductors, Internet, transportation, energy, and new materials research. The MIT Technology Review India Innovators Under 35 2013 list will be announced in March 2013 and the outstanding innovators will be recognized at our annual emerging technologies conference, EmTech India 2013 on March 25-26, 2013.
