The academic calendar for this batch has been designed in such a way that their next academic term does not suffer. At LU, the classes for those following subjects will be held regularly for 6 weeks. At the end of program, students have to appear in the final exam for the above courses at LU.

Students who opt for IEP will have to go to Canada during this summer to take the courses at LU. After successfully completion of a course and after passing the exam at LU, a student may be given credit for the course at GTU. A student, who passes the examinations for both the courses successfully at LU, will be able to take two less subjects during the final year and will not have to retake these courses when he/she resumes his/her study back at his/her parent college.

GTU will get VISA related papers from LU for the selected students and then the students have to apply for the VISA on their own. Please note that short listing does not guarantee the visa for a student, since every student has to fill up the visa application form and supply the necessary info to the Embassy in India. LU and GTU will help by recommending the names of the selected student to the Canadian High Commission.
