The Great Mind Challenge 2013 - Mobile App Contest for UG/PG Engineering Students

IBM Academy, in association with Gujarat Technological University announces The Great Mind Challenge 2013-Mobile App contest. Gujarat Technical University wants engineering college students to engage in a contest format on a very current technology that is in high demand and relevance in the business world now.

IBM Academic Initiative is launching a series of contests to help students take advantage of this opportunity. The Great Mind Challenge 2013 is based exclusively on the 1st of the Big4, namely, Mobility. The contest offers students of engineering college, the chance to learn about Mobility from a repository of self-learning assets and provides them with the software tools free of cost to work on and build mobile applications under the able mentorship of experts from IBM Software Labs and the software industry at large.

The Great
Mind Challenge
2013
presents
Close Encounters
of the Mobile Kind
YOU CAN CHANGE THE WORLD
IBM.
Even the biggest
and best innovation
begins with a simple idea.
Whether you want to stop global warming or revolutionise the electoral process in the biggest democracy or eradicate poverty across the nation…
If you believe your idea can change the world, participate in the 'Close Encounters of the Mobile Kind' – The Great Mind Challenge Mobile App Contest. Work with the IBM experts on ground-breaking technology platforms and convert your game-changing ideas into cutting-edge mobile applications.
You could win: Exciting cash prizes | Internship with leading IT organisations | Industry recognition
Move beyond classrooms.
Achieve your dreams. Be career-ready!
