Atmiya at Glance

Sarvodaya Kelavani Samaj (S.K.S.) has started functioning in Rajkot from 1988. An economically disadvantaged position and lack of adequate facilities for higher education in Saurashtra and Kutch persuaded H. D. H. Hariprasad Swamiji, to choose Rajkot, situated in the heart of Saurashtra and Kutch for conducting His philanthropic activities. We have been imparting first-rate education in almost all major faculties in Social Sciences, Humanities, Commerce, Sciences, Pharmacy, Engineering and Technology.

These 24 years, from 1988 onward, have been a period of development in S.K.S. We have invested millions of rupees in creating and strengthening infrastructural facilities in our schools, colleges & institutes. Yogidham, our campus, located on 23 acres of land, provides educational facilities from KG to PG, and we endeavor to synthesize spiritual, scientific, and technological achievements of the East and West so as to bring about harmonious and integrated development of young minds.

A few words about the Workshop:

A great deal of value is attached to published research. Writing research paper is an option for undertaking short period research investigation. Ph. D. Scholars are required to publish 2/3 research papers in refereed journals before the submission of thesis. A substantive research effort is invested in research paper writing by a large number of teachers, industry experts and scholars. However, several authors do not know how to write a research paper with the result that a large number of papers are rejected by peer reviewed quality journals.

Writing a research paper is an art as well as a sophisticated knowledge based skill. Very few among the academia understand the finer nuances involved in writing a research paper which is publishable in high quality referred or peer reviewed journal. This workshop is expected to fill up this gap to some extent.
