Oracle Academy Programme - Developing IT Skills

5 days workshop on

- (1) Java Fundamentals & Java Programming and
(2) Database Design and Programming with SQL**

After a success of workshops of Alice 3 held at BISAG Gandhinagar in Oct, 2013 & on Database design and programming with SQL in Nov, 2013 at BISAG Gandhinagar, Gujarat Technological University is going to organize 5 days workshop with Oracle Academy.

Oracle proposes to work with Gujarat Technological University through the Oracle Academy program to support government's ongoing educational reforms and build human capacity in the state.

Advanced Computer Science course is designed for university computer science/Information Technology departments; this offering provides Faculties/students with hands-on access to Oracle database and middleware software. They gain exposure to Oracle's world-class software, giving them a competitive advantage as they prepare to enter the workforce.

From this workshop the faculty of the colleges will receive training from Oracle trainers, thus, upgrading their professional skills and knowledge as well. This, in turn, will help create a sustainable model wherein the skilled faculty will be able to take up future training programs for the new faculty in future.

For this workshop registration of faculties from GTU affiliated Degree Engineering, Diploma Engineering (CE/CSE/IT) are invited.

For this Workshop Diploma & Degree engineering faculty will have to register themselves after getting permission of their principal and have to send scan copy of permission letter with stamp and sign of principal to gtuprojects@gtu.edu.in to complete registration process (Format for registration permission is attached herewith).

There is no fee for this workshop and participants will be provided refreshments and lunch during training days.

*No TA/DA is given to participants for this course.
