

GTU INNOVATION COUNCIL (GIC)

www.gtuinnovationcouncil.ac.in

Calling GIC-IPR Fellows:

Orientation Program for

'Designing IPR Activities for the Current Academic Year'

Date: Thursday, 24 July 2014

Time: 04.30 PM to 06.30 PM

Venue: S4-C3 (Student Start-up Support System- Co-Creation Space), Ahmedabad Campus of Gujarat Technological University(GTU), ACPC Building, LDCE Complex, Navarangpura, Ahmedabad -380 015

Inviting students from GTU affiliated colleges to join as IPR Fellows

Pre-Final and Final Year students of all fields, if they are interested in **Intellectual Property Rights (IPR)** and patenting processes, are welcome.

To increase the awareness about various kinds of intellectual property rights, GTU has been conducting a massive movement, since September 3, 2011. During 2013-14, GTU had successfully implemented the PSAR (Patent Search and Analysis Report) generation and PDE (Patent Drafting Exercise) activities. GTU has organized a large number of FDPs (Faculty Development Programmes) at various colleges of Gujarat on IPR and patenting. Through these FDPs, more than 1100 faculty have been trained about different aspects of IPR. The Seminars on IPR and patenting for students by such faculties at their Colleges have contributed to making GTU as the most IP literate university in India.

For continuing the IP literacy movement with the new Final Year students, GTU has planned this Orientation Program of IP Fellows for 'Designing IP Activities for the Current Academic Year'.

We invite students from GTU affiliated colleges to join this program and to work as IPR Fellows.

The discussion agendas for this meeting is attached as an Annexure to this document.

Those,

who wish to participate in this programme and who are willing to contribute for taking the IPR movement in the GTU community forward, can register themselves at:

<https://docs.google.com/forms/d/1ixPqOHHInGNoetLiwqyeEiJngqGQ-0LyGR-W8QuBbZM/viewform>.

For any query mail us at: ipr_projectofficer@gtu.edu.in or discuss with: Mr. Amit Patel @ 9898801467

Annexure I

IPR ACTIVITIES for the NEW ACADEMIC YEAR

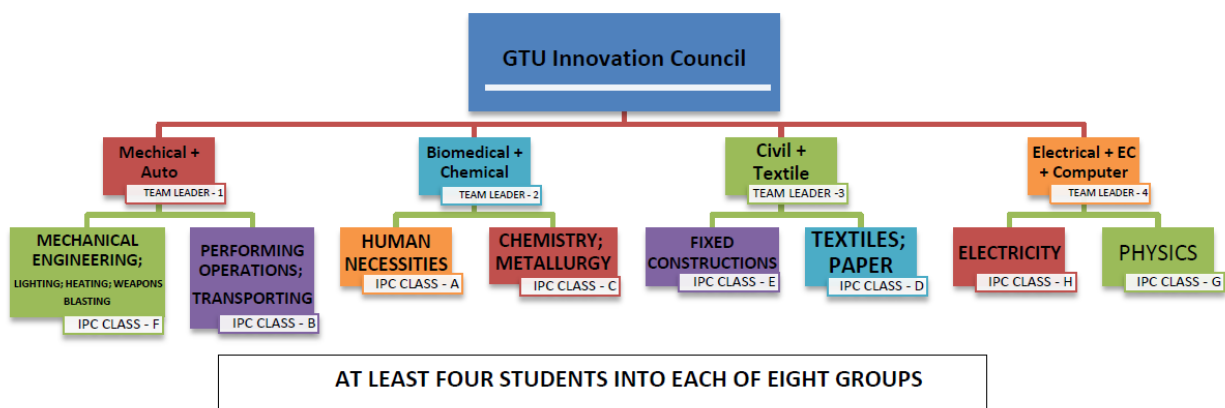

Identify best technologies of every week by analyzing patents from

PATENT JOURNAL BY PCT

(Publishes every week and comprises 3000-5000 patent applications across many fields)

All patents are classified in to eight (8) major classes of International Patent Classification (IPC) System

The four team leaders will help us with respect to:

1. They are immediate contact person for each team.
2. They will assign task/divide particular number of patents to each team member
3. They have to be in contact/constant follow up/touch with all team members.
4. Compile files from each team member and prepare compiled specific class presentation
5. Plan for next week work distribution to all team members.

Now our agenda is as following (consider one college, Say, LDCE)

1.
 - Invite students from LDCE (Only third year)
2.
 - We will allot them specified number of patents, related to their field
3.
 - Out of allotted patents, select the ones which are really INNOVATION, NOVEL AND HAS GREAT APPLICATIONS.
4.
 - Prepare ONE SLIDE per patent comprising: Application Number (web link), Title, Country of origin, What is technology, key features & applications.
5.
 - Compile presentations from all team members and all branches. Total EIGHT presentation will be prepared.
6.
 - We will circulate all such presentations having best technologies of the week to all students (first to final year), faculty, HOD & principles.
7.
 - Ask them to give presentation department wise to all students (juniors to seniors)
