

# GUJARAT TECHNOLOGICAL UNIVERSITY

&  
**SAINT-GOBAIN GLASS ACADEMY**

ORGANIZE

## A Workshop on "Role of Glass in Construction Buildings"

► *6<sup>th</sup> September 2014*

*3:30 PM to 6:00 PM*

*Venue: Conference hall - A2, GTU Chandkheda Campus, Ahmedabad*

### About the Workshop

Modern glass buildings have redefined the architectural landscapes of urban India towards transparency, modernity and globalization. Glass contributes a whole new level of aesthetics, energy efficiency, safety, security and comfort to the buildings of today. In India too, the preference for glass is evident in every urban horizon. New applications, technologies and products are evolving and are now available in India.

In order to fulfil the potential of glass in buildings, it is necessary to enhance competence of key personnel involved in design, selection, processing, installation & maintenance of glass products.

So, GTU is going to take initiative to provide the platform for its Civil and Mechanical engineering students and professors to get insights on latest technologies on Glass Industry where they can enhance their skill for the subject with the help of the professionals from The Saint-Gobain Glass Academy

### Who Should Attend?

The Students and Faculties from Mechanical and Civil engineering should take the benefit of this workshop.

### Certificate

All participants will be provided the certificate of participation in the workshop
