Microsoft

Microsoft Research India is excited to introduce MEC (shc

"Massively Empowered Classrooms"), a research project designed to bring the highest quality classroom material to every undergraduate engineering student in India. MEC is geared to be a fun, social, and interactive learning place for students and teachers! Many features distinguish the MEC from a traditional online learning platform. First of all its free.

But you have to sign up before 30th of March and upon completion of a course Microsoft Research will issue digital certificates to eligible students. So, sign-up, engage with us and stay tuned! Head to bit.ly/mecr now! and make use of this amazing opportunity .

Try to complete as many courses and also take part in quizzes and forum!

Do Note- That once you have enrolled in a course then you can complete the course at your own ease ie. whenever you get time.

We have kept the lectures short and to the point so it can even help in case you want to revise and sharpen your skills.

The direct link to the sign up page is here-
