NETWORKS of RESEARCHERS at GTU

Calling Faculties and Research Scholars to join GTU Automobile Research Group

(Please register online before 14th March, 2015 by clicking on

<http://goo.gl/forms/SDYTFQmoqP>)

Gujarat Technological University has a very strong program in Automobile Engineering and is setting up a model for large Universities of India to promote Research through Networks in geographically distributed academic institutions. "GT Motorsports" is a team built by GTU to provide equal opportunity of innovation to every students studying at its affiliated colleges. Recently 22 students from GTU's 12 affiliated colleges worked on a single project in Hub and Spoke model where they built the parts of the project at various colleges and finally assembled it at a centralized facility. In order to promote such activities and to facilitate Research activities in Automobile Engineering; GTU has planned to form Research groups for Automobile Engineering. Interested Faculty members and Research Scholars working in these areas from GTU affiliated colleges are requested to register on the link given above.

GTU will coordinate Research group activities and arrange regular brainstorming sessions, Seminars, Workshops and google hangout meetings between these research group members. GTU will work as a hub to support innovation and will bring in support of experts/institutes/Government agencies from around the world to support research activities of these research groups.

Registered faculties will be invited to join the first Google Hangout meeting call of this research group on 17th March, 2015.
